Job Summary

As the Fisheries Biologist (RPBio), you will play a crucial role in developing and implementing Saik'uz First Nation's fisheries and water monitoring programs. You will work closely with the Lands & Resources Manager to build the necessary information management infrastructure, support stewardship initiatives, and foster partnerships with various stakeholders. Your efforts will help ensure the sustainable management of our natural resources and contribute to the overall health and prosperity of our community.

Duties & Responsibilities

- Develop and implement fisheries and water monitoring programs, including data management and land use referrals.
- Provide mentorship and training to monitors, staff, youth, and others.
- Develop, support, and enforce Saik'uz Water Management/Fisheries Policies.
- Manage and coordinate projects to ensure timely and cost-effective success.
- Liaise with Saik'uz Members, neighbouring Carrier Sekani First Nations and NFN Nations, proponents, and government representatives.

Qualifications & Skills

- Knowledge of Saik'uz culture and stewardship.
- Registered Professional Biologist (RPBio) designation or working towards it.
- Excellent time management skills.
- Proficiency in Microsoft Office programs (Word, Excel, etc.).
- Strong interpersonal skills and adaptability.
- Ability to work independently or in a group.
- Diplomatic and tactful in interactions with various departments.
- Reliable and confidential.
- Valid class 5 driver's licence, a clean driver's abstract, and reliable vehicle.

Salary & Benefits

- Wage: \$42-44 per hour
- Benefits: Medical and dental coverage (after 3-month probation), pension plan, vacation, and statutory holidays.

To apply, submit a copy of your resume to the Band Office or via email at resume@saikuz.com. If submitting via email, include the position title in the subject line.

We thank everyone for their interest; however, only those selected for an interview will be contacted.
